Kia ora,

BROOK STREAM – INSTREAM INVESTIGATION

During the August 2022 weather event some of Nelson's rivers and streams suffered bank and bed erosion, and/or were inundated with flood debris. We need to remediate some of these areas to reduce the chance of the river flooding again and further damaging Council assets and/or private property.

Prior to carrying out any instream repairs in Brook Stream, we need to confirm the exact location of the water trunk main which crosses the stream under the Bronte Street footbridge.

Nelmac Kūmānu has been contracted to carry out this investigation. There will be an increased level of activity including trucks moving around the area. Once the services have been located and measured, the ground will be back filled and reinstated.

We anticipate work to take 1 week to complete (weather dependent) and will take place the week of Monday 5 August. The approximate areas of work are shown in red below.

Figure 1: Taken from Top of the South Maps.

If you have any questions or queries in relation to this work, please feel free to contact either me, by phone on 022 0264691 or by email on rebecca.thiessen@ncc.govt.nz, or Marc Jary by phone on 027 3886077 or by email on mjary@nelmac.co.nz.

There may be some noise associated with this work, so we apologise for any inconvenience that this may cause.

We appreciate your patience while this work is completed.

Yours sincerely,

Rebecca Thiessen
Utilities Engineering Officer – Flood Recovery
Nelson City Council
