Kia ora,

DODSON VALLEY ROAD – CULVERT INTAKE AND STREAM BANK REPAIRS

During the August 2022 weather event some of Nelson's rivers and streams suffered stream bank or stream bed erosion, and/or were inundated with flood debris. We need to remediate some of these areas to reduce the chance of the river flooding again and further damaging Council assets and/or private property.

The water from previous flood events has eroded the area behind the concrete entrance to the stormwater culvert (called the wing wall) in Oldham Stream adjacent to 72 Dodson Valley Road. Due to significant scouring of the banks, there is a risk to the structural integrity of this stormwater infrastructure.

Nelmac/Kūmānu Environmental has been contracted by Nelson City Council (NCC) to realign the stream channel and stabilise the banks by strategically placing large rock, thereby protecting them from further erosion and damage.

We are planning to begin repairs on Monday 20 May 2024. The work will take around 2 weeks to complete (weather dependent).

The approximate area of repair is shown in Figure 1 below.

Figure 1: Taken from Top of the South Maps.

If you have any questions or queries in relation to this work, please feel free to contact either me, by phone on 022 0264691 or by email on rebecca.thiessen@ncc.govt.nz, or Marc Jary by phone on 027 3886077 or by email on mjary@nelmac.co.nz.

There may be some noise associated with this work, so we apologise for any inconvenience that this may cause.

We appreciate your patience while this work is completed.

Yours sincerely,

Rebecca Thiessen

Project Manager

Nelson City Council
