Infrastructure - Capital project

WORKS NOTICE – WASHINGTON TERRACE WASTEWATER AND WATER PIPE RENEWAL

WHAT	**Wastewater and water pipe renewal**
WHEN	**Starting 20 January 2025 to early March 2025**
TRAFFIC	**Road closure - Washington Terrace**

WHAT ARE WE DOING?

- Nelson City Council regularly reviews our infrastructure network, and the pipes along Washington Terrace are in poor condition and need to be replaced. This includes stormwater and groundwater getting into the sewerage pipes, which could lead to unwanted overflows.
- Nelmac Limited have been engaged to install a new wastewater pipe and water pipe along Washington Terrace. This will include replacing the connections to the property boundary and reinstating the road surface after work.

DURATION:

- Construction is scheduled to start 20 January 2025 and is estimated to be completed by early March 2025 (weather dependant).

TRAFFIC CONDITIONS:

- Due to the narrow width of the road, a road closure of Washington Terrace is the safest option for both public and workers.
- Pedestrian and emergency access will be maintained at all times.

FIND OUT MORE:
