Infrastructure – Capital Project

WORKS NOTICE

St Vincent Street Infrastructure Upgrade

WHAT:	**Milling - Removing the top layer off the road**		
LOCATION:	**Haven Road, St Vincent Street and Halifax Street**	**HOURS:**	**7:30 pm to 7:00 am (Night works)**
DATE:	**18 and 19 August 2025**	**TRAFFIC:**	**Full road closure**

WHAT ARE WE DOING?

Nelson City Council is upgrading the infrastructure under Haven Road, St Vincent Street and Halifax Street. The primary focus of this work is to replace the deteriorating 1946 stormwater box culvert.

The next step in the project is the removal of the existing road surface so that trenches can be dug.

WHY ARE WE DOING IT?

We are working at night to minimise the impact to the wider road network. The work requires a full road closure to complete it safely.

Infrastructure – Capital Project

WORKS NOTICE

St Vincent Street Infrastructure Upgrade

DURATION:

The milling work will commence at 7:30 pm on Monday 18 August 2025, and it is expected to take up to two nights.

MORE INFORMATION:

Visit https://shape.nelson.govt.nz/st-vincent-street-infrastructure-upgrade for more information.

Night work activities will be minimised to reduce the impact to nearby residents.

Due to the plant and equipment required to complete this operation, elevated noise levels are expected. The construction team will endeavour to minimise the noise as much as possible but recognise this operation will impact residents.

CONTRACTOR INFORMATION:

Contractor: Tasman Civil
