Watermain renewal on Nayland Road

The watermain on Nayland Road, between Aldinga Avenue and Songer Street, needs to be upgraded.

This water pipe has failed multiple times over the past 2 years, so its replacement is essential to prevent future water disruptions.

To make sure the project is completed quickly and safely, Council will be closing the North bound traffic on Nayland Road between Aldinga Street and Songer Street. Traffic will be detoured down Masefield Street, along Marlowe Street and then onto Songer Street.

The map included on the back of this letter shows more detail.

Work is planned to start late May 2024 and will go for approximately 3 months (depending on the weather). Council will provide more detail to residents and businesses through flyers prior to work starting.

We understand this work will be disruptive but replacing the pipe will reduce the risk of costly future failures that are becoming more common with the old pipe.

If you would like to get in contact to discuss any aspects of this work please contact Council on **03 546 0200** or email **projects@ncc.govt.nz**

Project updates will be provided on Shape. Nelson.govt.nz and click on Nayland Road water main.

Thank you in advance for your patience while this essential work gets underway.

Stage 1: Aldinga to Harford Street. Will begin the week starting 27 May. It is expected to take 3 weeks to complete the work.

Stage 2: Harford Street to Lusty Place. Expected to begin the week starting 10 June. It is expected to take 3 weeks to complete the work.

Stage 3: Lusty Place to Songer Street. Expected to begin the week starting 1 July. It is expected to take 4 weeks to complete the work.
