

WORKS NOTICE: **PARERE STREET WASTEWATER & TRANSPORT RENEWAL**

WHAT: To renew and upgrade key wastewater infrastructure, and road pavement rehabilitation works

LOCATION: Parere Street, Nelson	HOURS: 7.00am to 6.30pm, Mon - Fri
DATE: 19/10/2026 to 19/04/2026	TRAFFIC: Road closed to through traffic, resident & business access will remain open. Single lane access from Vanguard St only. Buses will be detoured around Parere St.

WHAT ARE WE DOING?

We're replacing and upgrading the wastewater pipes between St Vincent and Vanguard Streets.

The wastewater upgrades will be coordinated with planned pavement rehabilitation works to minimise disruption and improve construction efficiency.

WORKS NOTICE: PARERE STREET WASTEWATER & TRANSPORT RENEWAL**WHY ARE WE DOING IT?**

The existing wastewater reticulation pipes were installed in 1906, while the Swallow Main pipeline was installed in 1929. Both assets have exceeded their design life and are due for replacement.

In addition, recent pavement performance on Parere Street has highlighted underlying pavement concerns. Surface cracking and spongy areas indicating poor subgrade conditions.

DURATION:

Preconstruction investigation potholing will be commencing from **19th October 2026**. The first stage of construction will run from late November and will be complete prior to Christmas.

Construction will continue from 5th January 2027 through to late February. This will be followed by pavement renewals across March and April. More information on the pavement renewals will come.
