TEMPORARY ROAD CLOSURE PROPOSAL

Nelson City Council has received a proposal from Schick to temporarily close the following roads to ordinary traffic between the dates listed below:

Toi Toi Street and St Vincent Street intersection (roundabout)

Date and time of scheduled closure: Wednesday 15 May to Friday 30 August 2024 - Closed 24/7

Contingency dates and times when closure may occur: Friday 30 August to Friday 20 September 2024 - Closed 24/7

The closure is for installing raised crossings, stormwater modifications, pavement construction and road sealing. ***This project is expected to take 12 weeks.***

Traffic will be managed through traffic lights. Delays are likely and detours will be in place. Vehicle access for businesses/residents, couriers and home help will be available where possible. Rubbish and recycling bins will be collected as normal.

No roadside parking will be available. Pedestrian access will be provided.

To understand how this closure could impact businesses/residents, we welcome feedback on this proposal by Tuesday 14 May 2024.

Feedback can be sent:

In writing - Attention: Chloe Wells, Nelson City Council, PO Box 645, Nelson

By email - enquiry@ncc.govt.nz

The decision on whether the road will be closed will be advertised on the Council's website, www.nelson.govt.nz. Residents will also be informed via a letterbox drop.

Nelson City Council would like to thank everyone in advance for your patience and understanding when road closures occur.

This proposal is made in accordance with the Local Government Act 1974. Unauthorised use of vehicles on the road during the closure period is not permitted and may constitute an offence.

Internal Document ID: 1355221503-10922

Frequently asked questions

Why are road closures necessary?

Road closures help make sure an area is clear so that work can occur in a safe and uninterrupted manner. Ongoing traffic management isn't required, so work can be done quicker, resulting in less disruption and a lower cost to complete the job.

What happens if there is an emergency and a resident needs emergency services?

Emergency services will be given access during the day when workers are onsite. For after hours or 24/7 closures, a clear lane will be provided where emergency services can access a street. Emergency services are informed of all NCC road closures.

What access delays could be expected?

Times will vary depending on where the work is occurring in relation to any particular driveway, however, 10 – 20 minutes would generally be considered the worst-case scenario. Where your access is required to be closed for longer than these times (for example, to trench across your driveway or to pour a new concrete driveway/footpath) the contractor will inform you directly by coming to see you before starting work. Generally, driveway work and concrete curing will take 3 -5 days. Other work may take longer.

How will I know if there are any changes in the Road Closure dates?

Information regarding approved and pending road closures can be found by visiting: <http://www.nelson.govt.nz/council/news/road-closures/>. For updates about Council's road maintenance programme, including the proposed dates/times for working on your street, please visit <https://shape.nelson.govt.nz/>

I need service/work done at my residence. How will this be affected?

We do understand that people may have work booked in, or need work done during a road closure. If you do, then please email us at enquiry@ncc.govt.nz and we will pass this information onto the Contractor. Once work gets underway, please discuss with staff onsite if you need special access.

What do I do with my recycling?

Recycling can be put out on your normal day, unless otherwise specified.

How will I know if my bus route is affected?

Due to the closure, eBus Route 3 will be diverted. The eBus will not travel down Totara St. It will continue along Vanguard St, diverting down Northesk Street. These stops will be closed for the duration of the work: Totara Street at Victory Community Centre, 178 St Vincent Street, Opposite 168 St Vincent Street. There will be temporary stops on Northesk Street.

Will I still be able to leave my street by car?

Unless otherwise stated, resident access will be available but delays may be possible. The same goes for carers and courier deliveries.

Will I still be able to walk on the footpath?

Unless otherwise stated, the footpath will be accessible and if not, there will be a detour for pedestrians to use.
